RE: Client Reference for TTL Associates, Inc.

To Whom It May Concern:

I have been asked to write this letter of reference for TTL Associates, Inc. (TTL), provider of professional environmental consulting services in support of the Base Operations contract maintained by TECOM/All Star at the United States Army Garrison-Detroit Tank Arsenal (USAG-DTA). As the Business Manager and Contract Manager for TECOM/All Star, I have been responsible for the selection of TTL Associates, Inc., as well as the oversight and evaluation of TTL's performance.

TTL joined the TECOM/All Star team as a subcontractor in October 2006. Since that time, TTL has provided high-quality, professional services in all areas of environmental management and compliance associated with a complex Base Operations project. The TTL staff has been responsive, flexible and technically competent in performance of their subcontract duties. TTL has managed the project efficiently and continually meets the deadlines imposed by the Federal Government under the Base Operations contract.

In conclusion, working with TTL has been a pleasure. They have provided professional opinions that gave TECOM the information needed to make informed decisions. Based on our experience, I would highly recommend TTL Associates, Inc. as a provider of quality professional consulting services. Please contact me if you desire additional information about our association with TTL.
